

**Hydropower Program Biologist - 2 Positions**  
**Oregon Department of Fish and Wildlife**  
**Clackamas & Bend, OR**

Do work that matters for Oregon's fish, wildlife, and habitat! Take the lead in hydropower licensing review and mitigation implementation for projects in northwest and central Oregon.

Responsible for implementation of fish, wildlife, and habitat protections as part of the department's hydropower program for hydropower projects located in the northwestern and central parts of Oregon that require state and/or federal licenses. Coordinate the region's and district's involvement in consultation with fish, wildlife, and habitat divisions on proposed and existing hydropower projects. Work with state and federal agencies, tribes, and interest groups to coordinate, develop, and lead department comments, negotiations and related activities on hydropower projects in the region and oversee monitoring compliance with hydropower project license provisions.

**Qualifications:** Requires three years of biological, ecological or hydrological experience performing studies, research, or resource management activities in a fisheries, hydrology, water management, stream ecology or related program. At least one year of the experience must be at a technical or professional level performing activities such as researching and analyzing data, conducting investigations, applying pertinent laws and regulations, or coordinating and monitoring project activities; and a Bachelor's degree in Fisheries, Hydrology, Water Management, Stream Ecology or a closely-related Bachelor's degree with at least 45 quarter (30 semester) hours of biological/ecological/hydrological coursework, or three additional years of experience. A Master's/Doctorate degree may substitute for some experience.

**Salary:** \$4,552-\$6,964/mo. Generous benefits package.

**Closing Date:** May 31, 2022
